

CLOUD-BASED LIVE TEMPERATURE MONITORING

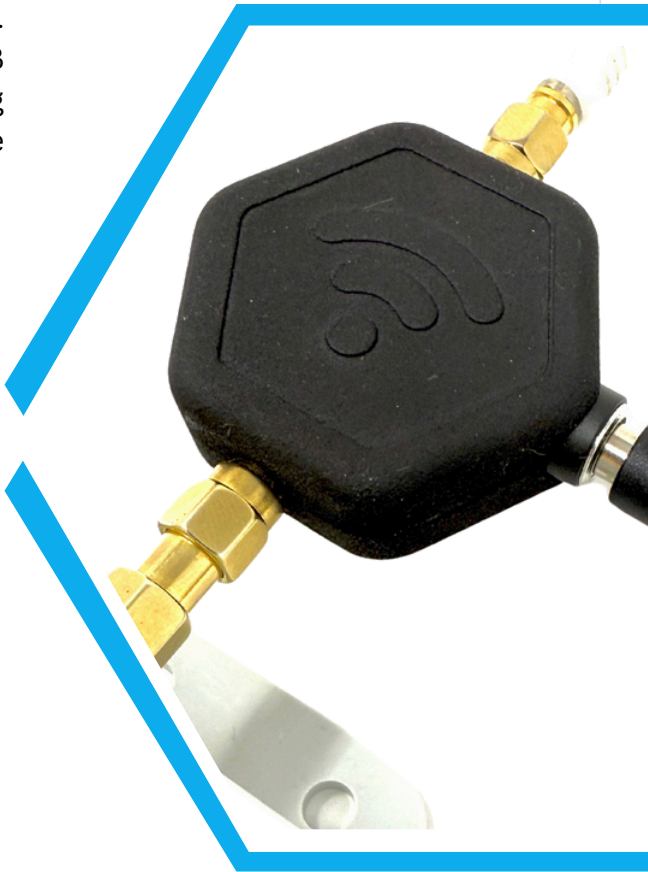

RF RANGE EXTENDER

Boost your connectivity with the BluLine Solutions RF Range Extender. This power-packed device amplifies your wireless device's radio signal strength, breaking barriers and helping devices communicate out of those tricky, far-off locations. Installation's a breeze - no configuration needed. A solid 20 dB signal boost that powers through even the most challenging environments, often enhancing signal gain by up to 50%. Charge into the future, with the BluLine Solutions RF Range Extender.

- **Easy to Install:** The RF Range Extender comes complete with the power supply splitter cable that connects to your Gateway Hub power. No tools are needed to install and takes less than a few minutes.
- **Small but Powerful:** This device connects in-line with your antenna cable connection to the Gateway Hub.
